Millions of North American children and teenagers go to summer camps every year. At traditional camps the 'campers' do outdoor activities, for example, swimming, riding horses, or water-skiing. Many camps specialize in one activity - you can learn about ecology, music, science, and many more things. Check out our selection of camps.

#### Mountain adventure

Walk and climb in the beautiful North Cascades (Washington State), then camp under the stars next to a lake. You learn about plants and animals and how to survive in the mountains,

#### Calling all artists!

Be an artist at our Arts Centre for students aged 13-18. We have courses in art, dance, music and theatre. Our students have lots of fun and our teachers are excellent.

**IV. READ FOR FUN: Teenage web designer.**

Mike Sutton, from Sydney Australia, is a webmaster and he has his own company. The company is called "Whaam! Web Creations." And he's 15 years old. He's in 10<sup>th</sup> grade at school.

We asked him some questions. Here are some emails between him and us.

**Question:** Is it easy for a 15-year-old to do this work?

**Answer:** Easy? I'm not sure - but it's exciting. I'm in the big world of business and I'm only 15. I do a lot of my work on the phone, so many people don't know that I'm only 15. And they don't ask me - so my age is not really a problem.

**Question:** How do you learn the things you need to know?

**Answer:** Experience! It's the best way to learn things, I think. Sometimes I have a problem and I look at other pages on the Web to find answers. I have friends, too. Sometimes, they can help me.

**Question:** What is the importance of the Internet for people?

**Answer:** I don't think it is very important, really. It's wonderful, of course-it's so easy to get information. But I don't think it is a very important thing in the world.

**Question:** Do you do your own programming and design?

**Answer:** Often, yes. It's fun and hard-working. But I also have some people doing the work for me. They're all very creative people.
