NEW HUNT FOR LIFE IN SPACE

British space scientists are planning to join the American in the race to find evidence of life on (56) _____ planets. Alan Penny and his team at the Rutherford Appleton Laboratory have designed a telescope that is 40 times more powerful than Hubble. Known as 'Darwin', his telescope could tell if planets 50 (57) _____ years away have any kind of life on them. Two days (58) _____, NASA scientists had shown a proof that one of Jupiter's moons could support life, Penny announced that his telescope may be included in a European Space Agency mission. The Darwin project, with a (59) _____ of 500 million, is on a short list of two proposals. If approved it will probably be (60) _____ around 2015, its destination somewhere between Mars and Jupiter. The blueprint is actually for five telescopes positioned 50 meters apart in space, slowly circling a (61) _____ processing station. The combined data from these telescopes would build up a full picture of a planet, picking out faint images that have never been seen before. Darwin would not be able to take detailed photographs of the planets it (62) _____, but Penny believes a second-generation telescope could be sent up to do this. He claims it is worthwhile mapping the universe around our (63) _____ galaxy, even though these planets lie (64) _____ our reach for the moment. The European Space Agency will make its decision (65) _____ Darwin within three years.

Part 2. Questions 66 – 75 (2.0 points - 0.2/ each)

Read the passage below and choose the best answer to each question

If parents bring up a child with the sole aim of turning the child into a genius, they will cause a disaster. According to several leading educational psychologists, this is one of the biggest mistakes which ambitious parents make. Generally, the child will be only too aware of what his parents expect, and will fail. Unrealistic parental expectations can cause great damage to children.

However, if parents are not too unrealistic about what they expect their children to do, but are ambitious in a sensible way, the child may succeed in doing very well – especially if the parents are very supportive of their child.

Michael Collins is very lucky. He is **crazy about** music, and his parents help him a lot by taking him to concerts and arranging private piano and violin lessons for him. **They** even drive him 50 kilometers twice a week for violin lessons. Michael's mother knows very little about music, but his father plays the trumpet in a large orchestra. However, he never makes Michael enter music competitions if he is **unwilling**.

Winston Smith, Michael's friend, however, is not so lucky. Both his parents are successful musicians, and they set too high a standard for Winston. They want their son to be as successful as they are and so they enter him for every piano competition held. They are very unhappy when he doesn't win. Winston is always afraid that he will disappoint his parents and now he always seems quiet and unhappy.

66. One of the serious mistakes parents can make is to _____.
- A. push their child into trying too much B. help their child to become a genius
C. make their child become a musician D. neglect their child's education
67. Parents' ambition for their children is not wrong if they _____.
- A. force their children into achieving success B. understand and help their children sensibly
C. themselves have been very successful D. arrange private lessons for their children
68. Who have criticized the methods of some ambitious parents?
- A. Successful musicians B. Unrealistic parents
C. Their children D. Educational psychologists.
69. Michael Collins is fortunate in that _____.
- A. his father is a musician B. his parents are quite rich
C. his mother knows little about music D. his parents help him in a sensible way
