There are 4 skills they learned at Tiếng Anh 4: listening, reading, writing and speaking.

There are 10 units in each term, Ss knew about school things, colours, family, house, pets, weather, numbers, location in Viet Nam....

Through the final test, I have the results:

- 37 % students have best marks.
- 39,6% students have rather good marks.
- 23,4% students have average marks.

All of students are smart, hard-working, obedient. But some students are sometimes lazy, and they sometimes forget their homework.

Hoping students will study hard in next year.
